

BUTANE GAS HEATER

This compact & portable heater offers great heating performance from a single disposable 220g (Part No. 2200 purchased separately) butane gas cartridge.

This appliance is not only a great performer but also safe. Equipped with safety features such as ODS, Tilt Switch and a Flame Failure device that shuts the gas flow off in the case that the heater is extinguished.

Operation is as simple as loading in the gas cartridge and turning the control knob to the start position where the inbuilt piezo will ignite the pilot flame and burner assembly.

The heat output is adjustable by the same control with the appliance offering a low, medium & high setting.

The case is manufactured from high impact plastic and steel and is fitted with a carry handle. Fully certified and approved.

Part No	Size	Gas Consumption	Power Output	Weight
509112	330L x 130W x 330H mm	100 g/h	1.2kW	1.8 kg
